Re: Interim Industrial Waste Permit No. 26781  
Koppers South Cavalcade Site  
1573-73

Dear Ms. Sanchez:

In accordance with the above referenced permit, please find enclosed analytical results from the fourth tank of wash water at the South Cavalcade site (Sample No. SCK-WWO2-08). The enclosed data are results from acid, base/neutral organics, BOD<sub>5</sub>, and TSS analyses. The data show that the water quality is not significantly different from before and therefore should be acceptable for discharge.

Should you have any questions, please do not hesitate to contact me at (412) 227-2689.

Sincerely yours,

James R. Campbell, Ph. D.  
Program Manager,
